## Calculators for Grades 5 - Algebra 1

Math 5	Math 6	Math 7	Algebra I (All Grade 8 Students)
<p>Inexpensive Calculator from the dollar store is fine. It only needs to add, subtract, multiply and divide.</p> <p>It is only used periodically during the year.</p>	<p><b>Scientific Calculator TI 30x or Casio Target, Walmart, Amazon, Office Depot used on EBay</b></p> <div style="display: flex; justify-content: space-around; align-items: center;"> <div style="text-align: center;">  </div> <div style="text-align: center;">  </div> </div> <div style="display: flex; justify-content: space-around; align-items: center; margin-top: 20px;"> <div style="text-align: center;">  </div> <div style="text-align: center;">  </div> </div>	<p>Students need the same calculator as Grade 6. If you still have it, no need to purchase another.</p>	<p>All students in Grade 8 will take Algebra 1. They need a graphing calculator. TI84 is better and TI 84 plus CE is best. Walmart, Target, Office Depot, Amazon, or used on EBay. A TI84 plus CE graphs in color, making it easier for use. Will be used in High School.</p> <div style="text-align: center; margin-top: 20px;">  </div>
