

OLV Elementary School

A Father Baker Legacy

July 26, 2023

Dear Parents or Guardians and students,

I am so looking forward to this upcoming school year. It is an honor to be working at such a wonderful school, and with everyone in our Lady of Victory Elementary School family. Over the last few years, we have been blessed to have many new devices and expanded technology that we have been able to add in our Technology room, and throughout all of the classrooms. We also expanded into using our new 3-D Pens with 3rd grade to 8th this past year, and will continue to expand their use, and will be teaching the lower grades how they work and introducing them to them this coming year. Because of all of this new technology, our students continue to grow and excel in written and oral communication, while developing the critical thinking they will need as we position them to succeed in an ever-changing world. We give them the opportunity to use our technology with real world hands-on projects as they develop their experience and skill set.

As we head into the school year, the following supplies will be needed for our various hands-on experiences. I am asking everyone to please have them ready and available when we start school in September.

Pre-K through 2nd Grade: Only Headphones are needed. Students who have used them in the past, should bring them in. These will be kept in their homerooms and used as needed. They may also bring in a ½" (3-ring) binder if they wish to store copies of some of their work throughout the year.

For 3rd Grade – 8th Grade: Headphones or earbuds, a Folder, and a 1" binder (3-Ring). Students may continue to use the same ones from this past year if they still have them.

In addition to the above, all students should have a number 2 pencil with them when they come to class.

I hope that everyone continues to have a wonderful summer, and I look forward to working with all our students this coming year, and with your support, we will have another great year of school.

Please feel free to contact me if you have any questions, and I will work with you and your children to give them the best education possible.

Thank you for your help,

Mr. Joseph Patti
